EPA-WOO

Chelan-Douglas Health District
316 Washington St.
Wenatchee, WA 98801

We plan to treat our salmon with a chemical fungicide that will be discharged into the Wenatchee River by way of the Icicle Creek.

To satisfy our drug permit for F.D.A. we would like to know if any communities are using the Wenatchee River for drinking water. This would be any usage downstream from the entrance of the Icicle Creek into the Wenatchee River.

Thankyou,

Ralph P. Malsam
